

VNCdms

Store, manage and track electronic documents

VNC – Virtual Network Consult AG

VNC is the leading vendor of an integrated stack of collaboration and communication products for organisations who prefer to go with software that is based on open standards: VNClagoon.

About us

VNC – Virtual Network Consult AG, based in Switzerland, Germany and India – is a leading developer of open source based enterprise applications and positions itself as an open and secure alternative to the established software giants.

With the VNClagoon software stack, VNC, with its global open source developer community, have created an integrated product suite for Enterprise, SME, Governments and other Organisations, characterised by high security, state-of-the-art technology and low TCO.

The VNClagoon software stack consists of a variety of integrated products for seamless communication and collaboration, such as messaging, video conferencing, email, groupware, task & project management, file sharing, channels, and more. VNClagoon is a leading alternative to closed source and / or SaaS-only applications like Microsoft Teams, Zoom, WhatsApp and others.

The impressive list of VNC customers, who are using one or several of the VNClagoon components and products, demonstrates the solidity of the VNC concept: the future of modern software will no longer rely on closed source!

VNCdms

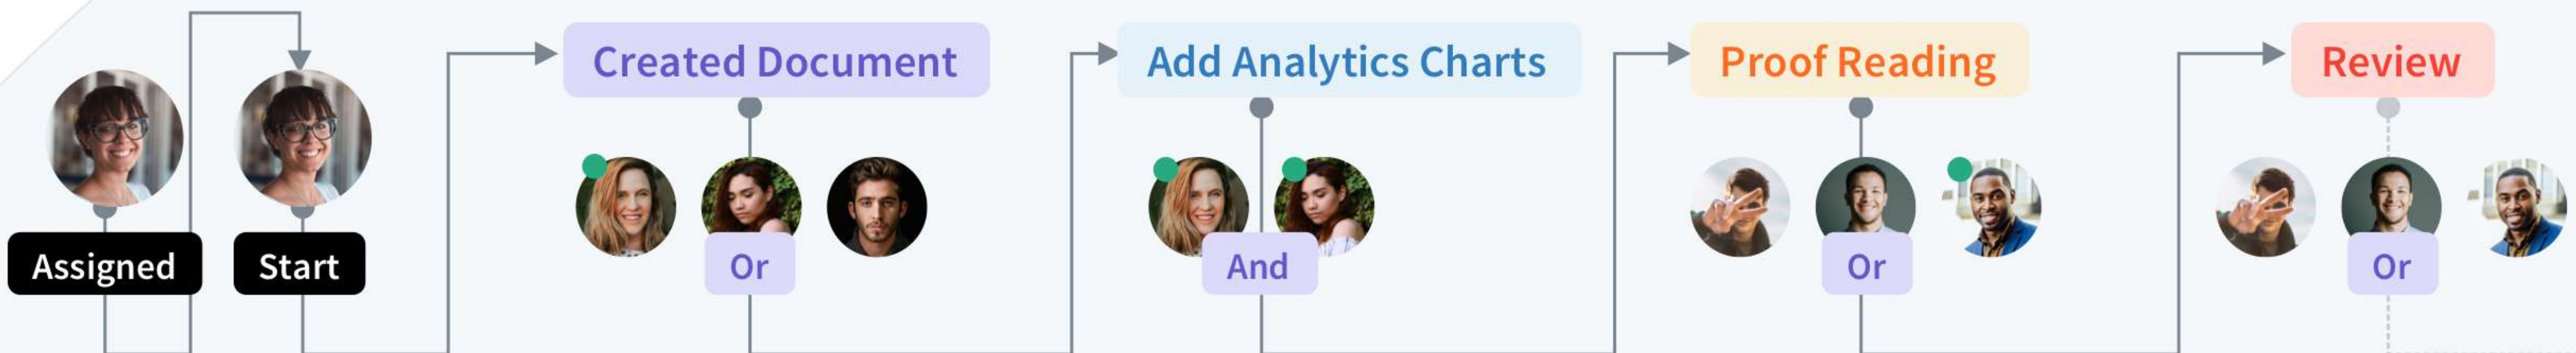

Store, manage and track electronic documents

Streamline Your Workflow: Say goodbye to the endless search for documents buried in physical filing cabinets or scattered across various computer folders. VNCdms provides a centralized repository that revolutionizes document organization. With intuitive categorization, tagging, and lightning-fast search capabilities, finding the right document is just a click away.

Fortify Document Security: Protect your sensitive information with robust security features. VNCdms offers access controls, ensuring that only authorized personnel can access, modify, or share documents. Rest easy knowing that your confidential data is safeguarded. Audit trails and document versioning add an extra layer of security, promoting accountability and compliance.

Experience the transformative power of VNCdms and revolutionize the way your organization manages documents. Maximize productivity, enhance collaboration, fortify security, and achieve compliance effortlessly. Don't miss out on this opportunity to take control of your documents and unlock your business's full potential. Contact us today and embark on a new era of efficient document management!

Workflow: PDF Presentations 2.0

Steps	User	Action	Status	Note
Assigned Workflow	Josephine Ford	Assignment		
Started Workflow	Josephine Ford	Started		
1 Created Document	Annie Bisson	Approved	Approved	Done!
2 Add Analytics Charts	Annie Bisson	Approved	Approved	Looks fine to me.

VNCdms Features

VNCdms is a game-changer for businesses seeking efficient document management solutions.

Experience a whole new level of productivity, organization, and control with our powerful DMS platform. Here's why VNCdms is the ultimate solution for your document management needs:

Strictly monitored Access

VNCdms is integrated tightly within VNCdirectory, so that you can manage all permissions to view, edit and approve files within your directory structure. Thus, granular approval processes are super safe and strictly monitored.

Notifications

Tailor your notifications in the notification center: you can choose between sound alerts with your favorite ringtone, badge colors, sticky notifications or email notifications after a certain period.

File Preview

VNCdms enables you to get a preview of nearly all file types stored in your VNClagoon system, e.g. image thumbnails, PDF or office document previews.

VNClagoon Integration

VNCdms is integrated within the VNClagoon Suite of communication and collaboration products. You need video conferencing and chat with screensharing? Use VNCtalk. You'd like to enhance your project management? With the integration of VNCproject you can create tickets from emails directly.

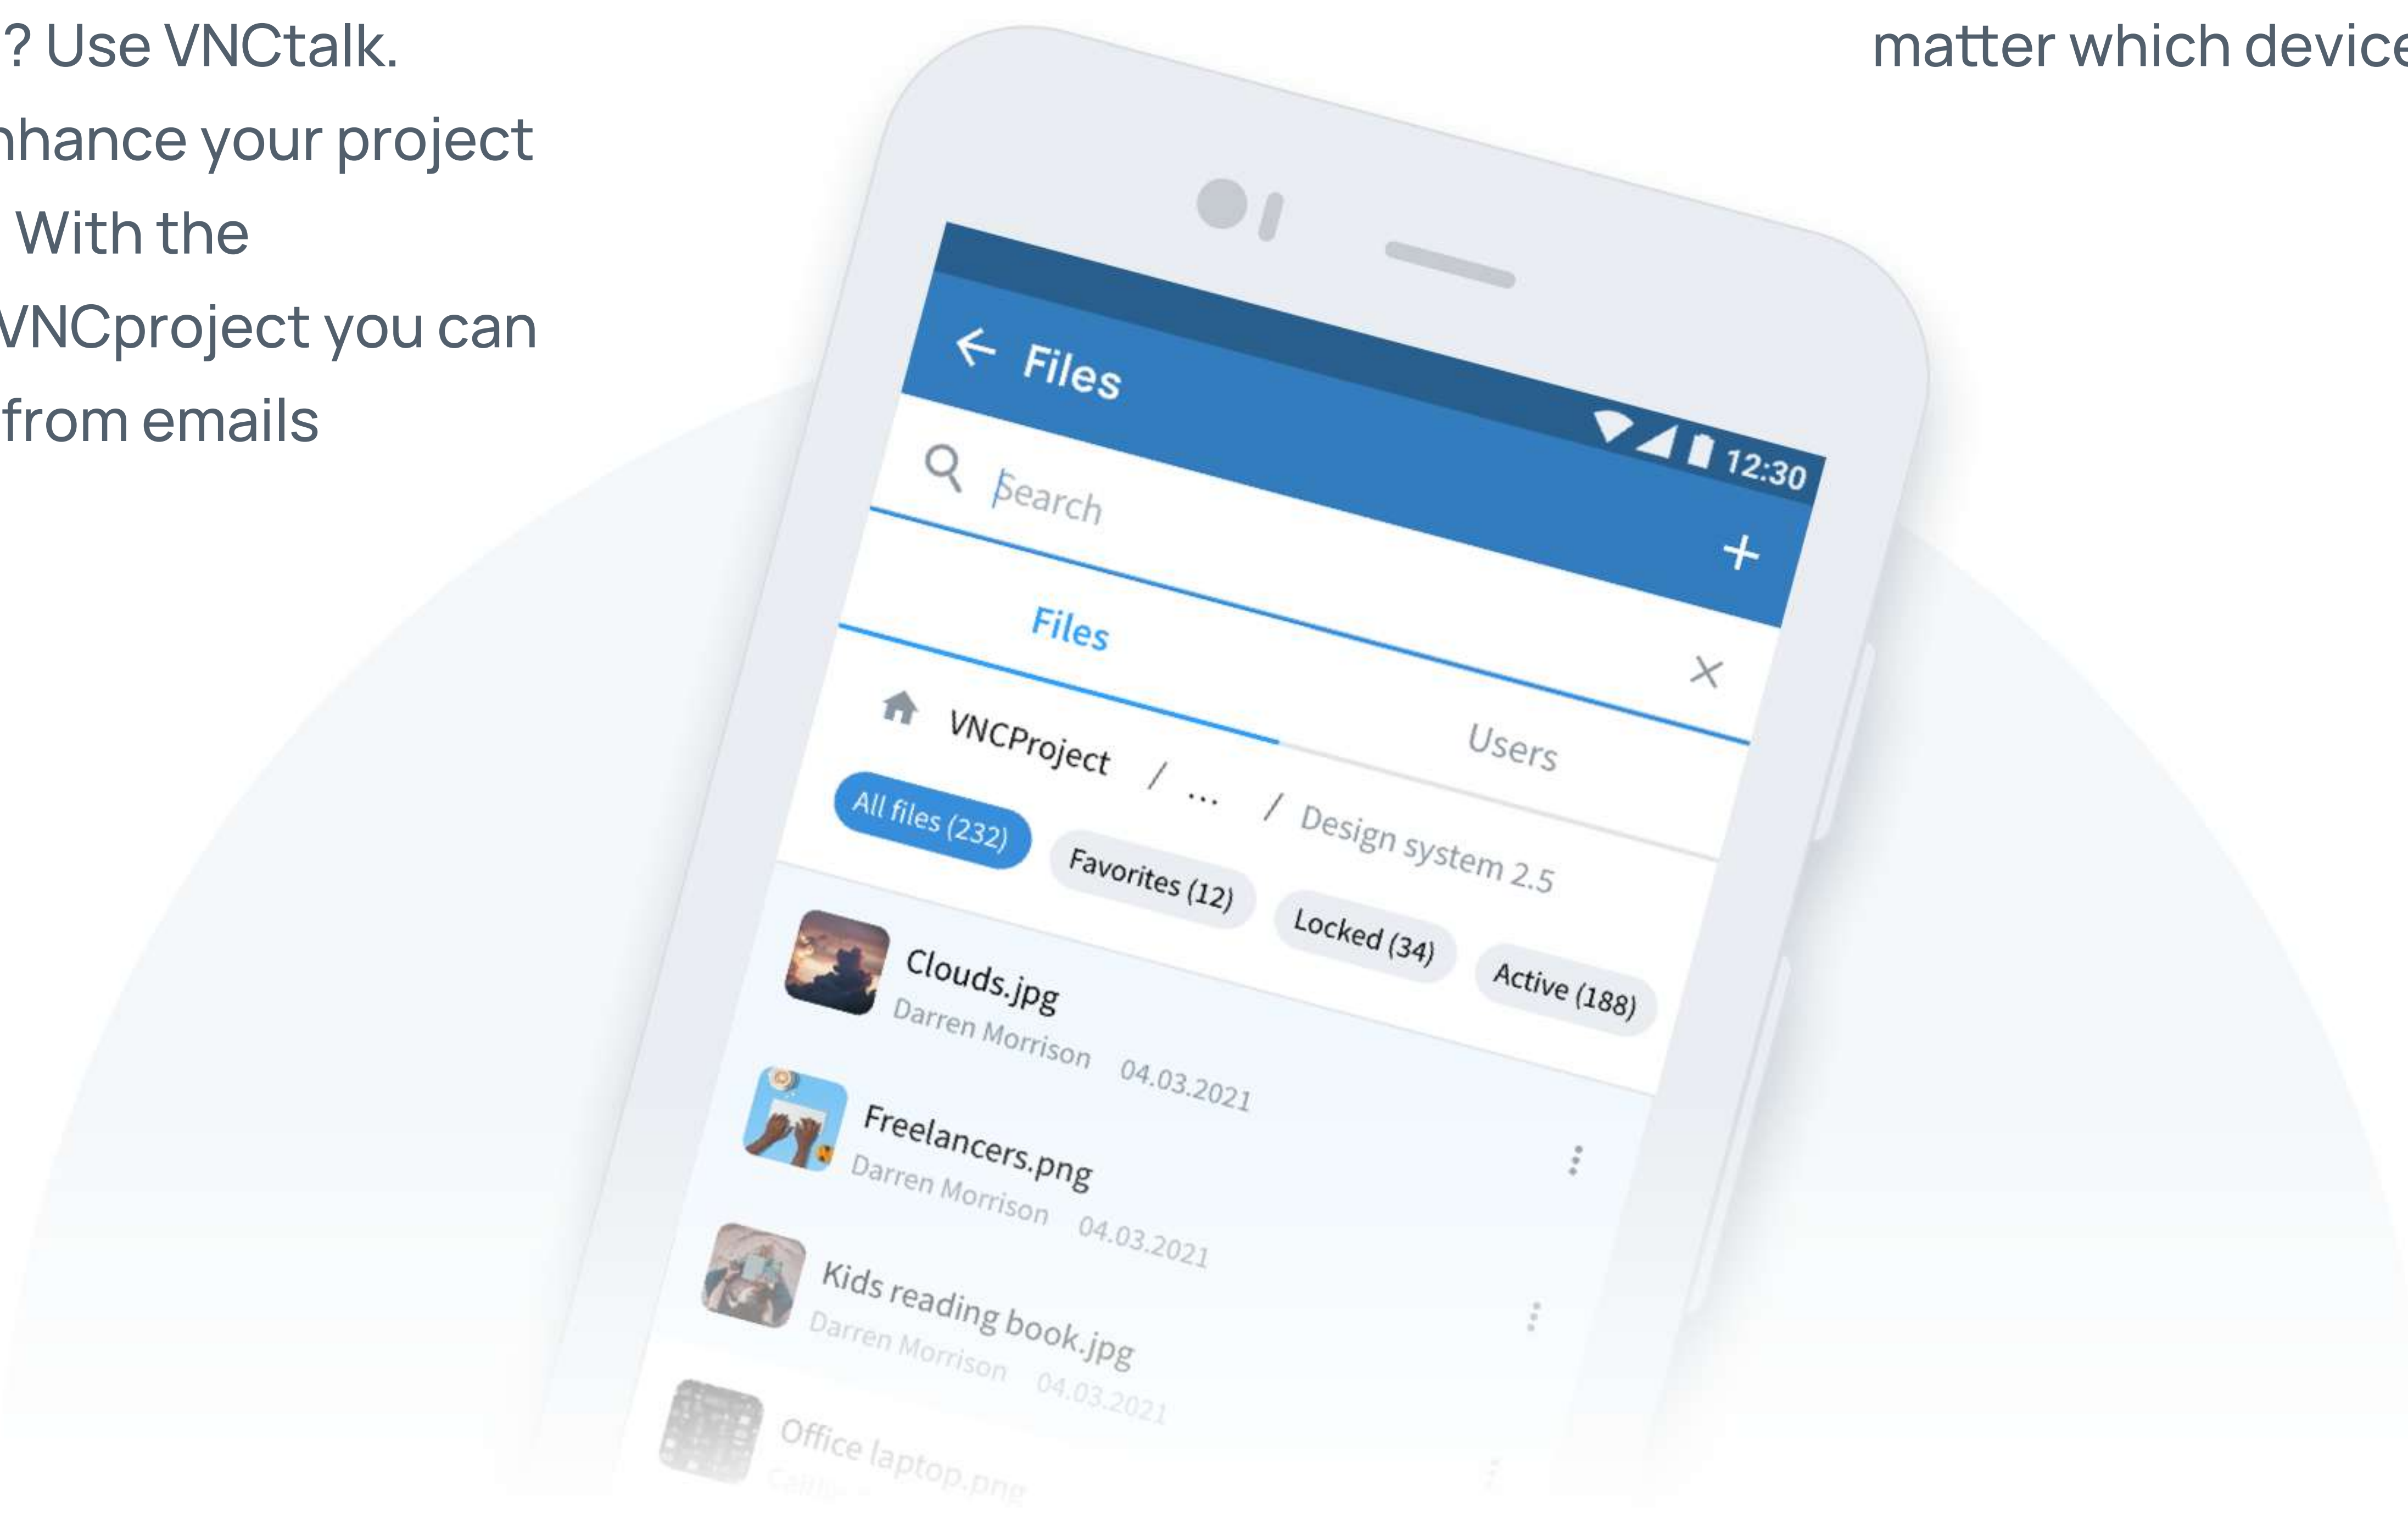

Settings & Customization

Individualize your DMS with specific settings for e.g. your most needed workflows.

Latest Frontend Technologies

Don't worry about layout issues on different devices. The VNCdms UI works on mobile phones, desktop PCs and tablets. VNCdms will adapt to your needs, no matter which device you will use.

VNCdms Highlights

Supercharge Collaboration: Collaborate seamlessly with your team, regardless of location or time zone. VNCdms enables real-time collaboration on documents, eliminating the hassle of sending countless email attachments. Experience efficient teamwork with simultaneous editing, comments, and annotations, all within the VNCIagoon Suite.

Boost Productivity: Time is precious, and VNCdms helps you make the most of it. Effortlessly retrieve documents, saving valuable time spent searching. Implement automated workflows and document routing to streamline processes, reduce manual tasks, and enhance overall productivity. Focus on what truly matters - your core business.

Secure File Collaboration

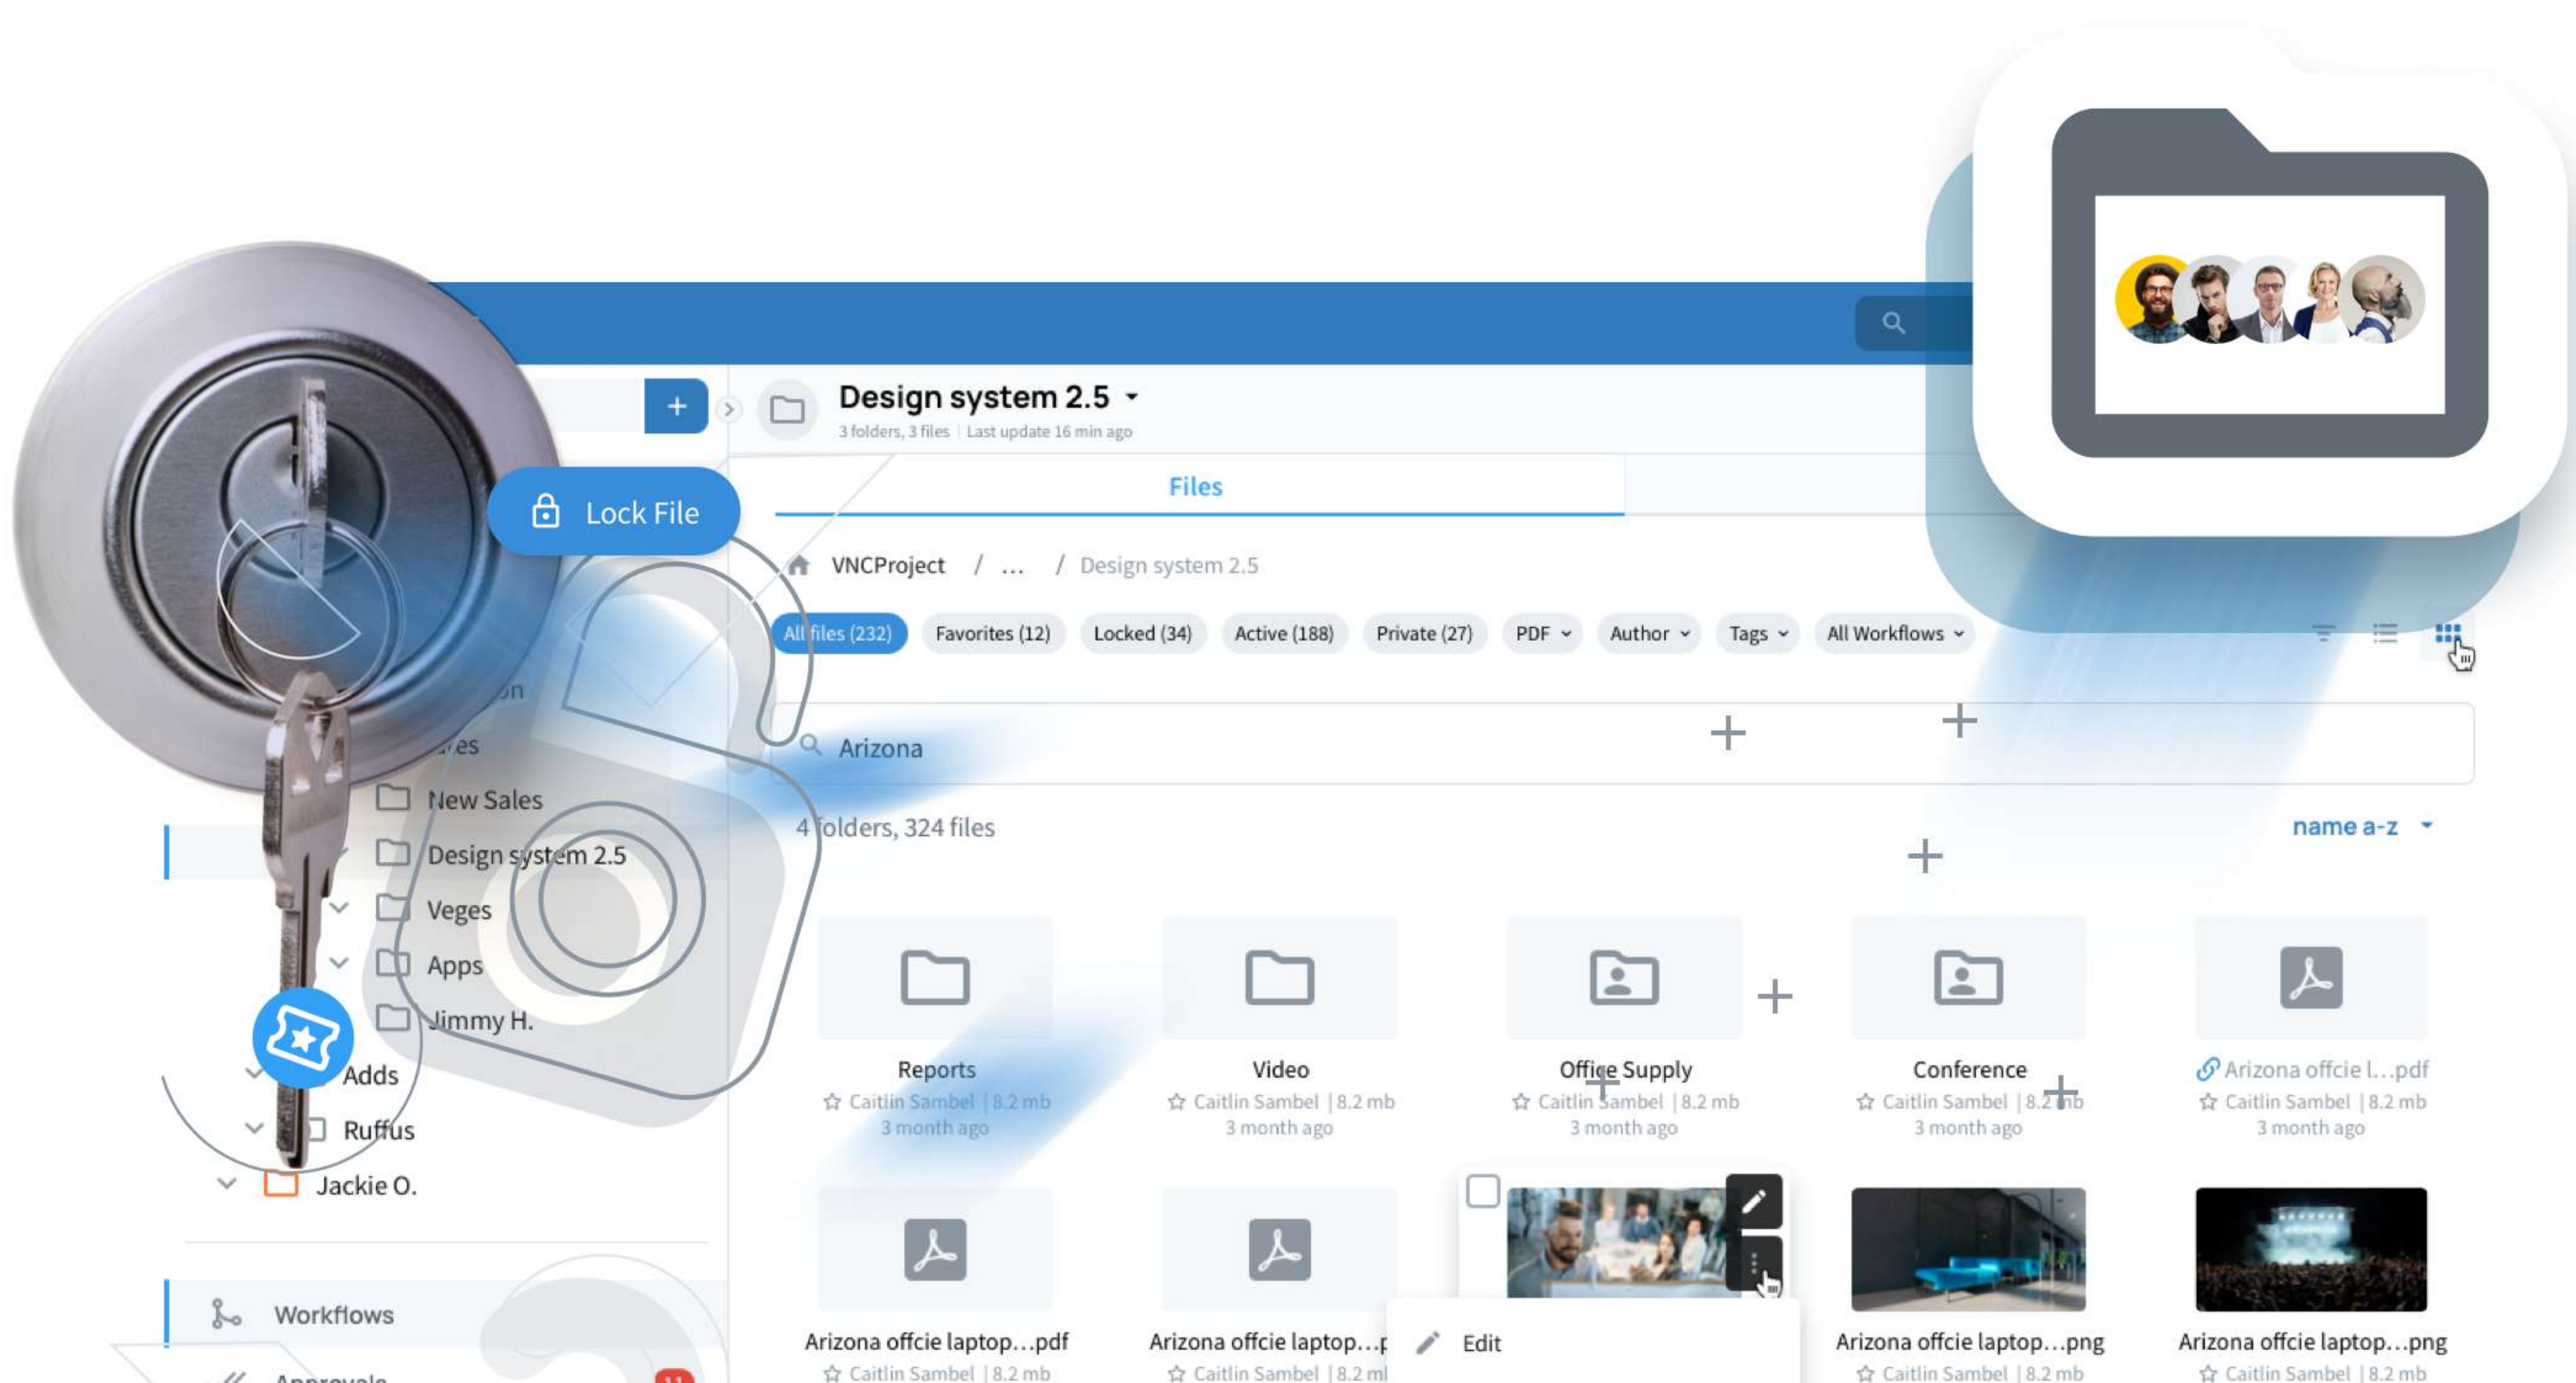

Secure file transfer using secure protocols and encryption to safeguard data in transit. Collaborate securely with role-based access control and permission management.

Document Workflow Management

Capture, generate, track, edit, approve, store, retrieve, retain and destroy documents associated with business processes.

Versions & Revisions

Collaborate with your team members via document versions and revisions. Manage the lifecycle of documents, track changes, and avoid confusion caused by multiple versions of the same file.

“VNC challenges the software giants that are oppressing the market with their expensive, inflexible and uninventive proprietary solutions. It’s time for open-source applications to finally replace them. We use VNC’s collaboration tools ourselves, including VNCtalk and, most recently, VNCchannels. The tools have made the transition to working from home extremely easy. The comprehensive VNCIagoon product suite is a real highlight in terms of functionality and operation.”

Alain Blaes, Managing Director of PR-COM Beratungsgesellschaft für strategische Kommunikation mbH

“The federal state church intranet should strengthen communication and cooperation within the state church. The basic aim is to provide all full-time employees and volunteers of the regional church with access to an innovative, modern and unified communication and collaboration infrastructure. The VNCIagoon products are particularly well suited for this, because they allow us as a state church – in addition to the many functionalities provided – the possibility of customization options to individual needs within our church. “

Tabea Langguth, Project Manager Landeskirchenweites Intranet, EKBO

“VNC and DFB GmbH have been working together intensively for many years. We want to continue and expand this. The DFBnet mailbox developed and implemented by VNC has enormously accelerated and simplified our internal communication. With this, we see ourselves well prepared for future requirements.”

Steffen Iredi, authorized signatory at DFB GmbH and responsible Director Technology & Operations

“My team and I are very thankful for being able to count on the professional and sophisticated VNC team. VNC has supported us with a series of important projects, always exceeding our high expectations.”

Marius Hjelset, Project Head Hosted Services, Vodafone Group
